THE FORTY-THIRD ANNUAL REPORT
OF THE
BOARD OF MANAGERS
OF
ST. LUKE'S HOSPITAL,
FROM

OCTOBER 1, 1900, TO SEPTEMBER 30, 1901.

The statistics of the year show the largest work in the history of the Hospital. As compared with the previous year, the increase in Hospital days is 4,124; in patients treated, 287; and in the Out-Patient Department, in visits, 3,932.

The current expenses have been \$50,629.51 in excess of the current income.

Our report again tells the sad story of many deserving persons requiring treatment being denied admission by reason of lack of room. Such must be the case as long as current expenses exceed current income.

In 1891 an arrangement was made with the House of Rest for Consumptives whereby the House of Rest should transfer to the Hospital all its property, in consideration of an agreement by St. Luke's to maintain for consumptive patients forty beds, together with an additional bed for each \$5,000 received from the House of Rest for endowment; and for each \$300 annual subscription for the purpose coming through the House of Rest, until the number should reach fifty; and that after such number should have been reached, St. Luke's should maintain an additional bed for each \$7,500. The number of beds for consumptives under such agreement has now reached seventy-five, which is a greater number than was expected, and is more than a proper proportion of all the patients which can be cared for in the pres-

ent buildings. Observation and experience have led to the belief that this class of patients can be better and more economically cared for in a place other than a general hospital located in a city. The most promising factors in the treatment of consumptives are found to be fresh air and out-of-door life. These facts, together with the realization that the constantly increasing number of beds to be provided for consumptive patients is attended with no small degree of danger from contagion to patients received into other departments of the Hospital, have made it seem wise to the trustees of both institutions to discontinue the arrangement. It has, therefore, been decided to cancel the existing relations between the Hospital and the House of Rest for Consumptives on January 1, 1902, the Hospital returning to the House of Rest the moneys paid it by the latter institution.

In previous reports the Management has alluded to the need of a pavilion for private patients. The demand for private rooms is becoming greater each year. Since the opening of the new Hospital, in 1896, two upper floors of the Vanderbilt Pavilion, or Nurses' Home, have been used for the care of the private patients. The accommodation thus provided keeps from the nurses, rooms which they ought to have, and is attended with discomfort to the patients. The place is noisy, difficult of administration, and lacking in necessities, such as bath-rooms, etc.; moreover, it is inadequate. Not infrequently has the Administration been obliged to decline admission to patients desiring private treatment, and who were suffering from maladies so acute as to make postponement impossible. This need has called for serious consideration. It is thought that a building in which private patients can be treated is not without its charitable phase. Those who can afford to pay for privacy and luxury during illness often cannot obtain in their own homes, and much less in hotels, apartment and boarding houses, the care and the aseptic conditions provided in a well-appointed hospital. Especially is this true of persons coming from places where skilled surgeons and trained nurses are not at hand. Added to this, the surplus revenue of such pavilion would enable the Management to increase the free work of the Hospital, and thus the charity would be doubly beneficent. The Board has authorized the Executive Committee to have plans prepared for a pavilion for private patients, and has requested it

to prepare a detailed report on the cost of erecting and maintaining the same.

During the year the gifts and legacies were as follows:

Additional payment on account of legacy of Alexander Proudfit	\$1,500 00
First instalment on account of the endowment of the Rockland County Bed, by St. Luke's Guild of Spring Valley, New York.....	50 00
Second instalment on account of the endowment of the Rockland County Bed, by St. Luke's Guild of Spring Valley, New York.....	50 00
One bed endowed in perpetuity, in Children's Ward, in memory of William Wilberforce Nevin, by his sisters and brother, Miss Alice Nevin, Miss Blanche Nevin, Mrs. M. Nevin-Sayre, and Rev. Robert J. Nevin.....	3,000 00
One bed endowed in perpetuity by Mrs. Johanna M. Williams, in memory of her son, Edward Tier Williams	5,000 00
One bed endowed in perpetuity by Mr. and Mrs. Walter Graeme Ladd, to be known as "The Robert Abbe Bed"	5,000 00
Third instalment on account of the endowment of a bed by Mrs. Edwin Parsons.....	1,000 00
One bed endowed in perpetuity by John H. Caswell, in memory of his father, John Caswell.....	5,000 00
One bed endowed in perpetuity by Mrs. Joseph M. White	5,000 00
One bed endowed in perpetuity by Miss Mary A. Astor Woodcock, in memory of her sister, Virginia Caroline Woodcock	5,000 00
One bed endowed in perpetuity by John Henry Murphy, in memory of his wife, Lillian Coe Murphy	5,000 00
One bed endowed in perpetuity by Lewis Peck Child and Mary Baldwin Auchincloss Child, in the Men's Surgical Ward, to be known as "The Hugh Auchincloss Child Bed," given in loving and grateful remembrance of their only son.....	5,000 00

On November 22d Mr. J. Pierpont Morgan, Jr., because of his continued residence abroad, tendered his resignation as Manager. Mr. Morgan had served on the Board since 1893, and during a long period of this time had been its secretary. His resignation was accepted with much regret.

Dr. George M. Lefferts, on April 29th, severed, by resignation, his connection with the Hospital. Dr. Lefferts was appointed Consulting Laryngoscopic Surgeon in 1877. His reputation and skill as a specialist were much appreciated by the Board, and his resignation was reluctantly accepted.

Dr. William H. Draper, from 1859 to 1867 Attending Physician, and from 1867 Consulting Physician, died April 1st. Dr. Draper was one of the first physicians appointed as Attending to the Hospital. His long connection with the Hospital, devoted service, and high reputation are regarded with pride and appreciation by this Board.

Dr. Fred P. Solley and Dr. Evan Evans, graduates of St. Luke's, resigned, during the year, positions they had for some time filled as Assistant Physicians to the Out-Patient Department. Their resignations were accepted with regret.

On May 27th the vacancy caused by the resignation of Dr. Lefferts was filled by the appointment of Dr. D. Bryson Delavan; and on the same date the vacancy ensuing from the resignation of Dr. Solley was filled by the appointment of Dr. William C. Calhoun.

During the year the last five (5) lots of the old Hospital property, at Fifth Avenue and Fifty-fifth Street, have been sold.

We acknowledge with gratitude the services of the Attending and Consulting Physicians and Surgeons, who have, as hitherto, rendered their services gratuitously to all of the ward patients.

Our thanks are also due a friend of the Hospital for generous gifts of silver and china table-ware for use in the private patients' service.

By order of the Board of Managers,

GEORGE MACCULLOCH MILLER,

President.

HOFFMAN MILLER,

Secretary.

CENTURY FUND.

The "Century Fund" of St. Luke's was inaugurated by Dr. Muhlenberg as a yearly subscription by 100 persons of \$100 each toward supplying the difference between the annual expenses of the Hospital and its income. For a time this century fund was maintained at its full number and amount, but through the death of original subscribers, and from an impression which is abroad that St. Luke's income from endowment having increased, there is not the same need of these contributions, the number of subscribers has gradually diminished. The income, however, has not grown as fast as the expenses; partly because of the steady increase in the proportion of patients with acute diseases and of applicants for free treatment, partly because the wards of the Hospital which are opened for patients are kept more continuously full.

The work of the Hospital for the past year is found on page 27. The relation of the receipts to the expenditures is found in the Treasurer's Report, page 14.

The number of subscribers last year was 89.

A subscription for the current year carries with it no obligation for the next. Subscriptions should be sent to the Treasurer.

The sewing societies of several of the city churches, and the Emergency and other Circles of the King's Daughters, have kindly done much sewing during the year for the Hospital; and the Thursday Lenten sewing-class has generously donated many articles of clothing for the patients.

Our gratitude is due Mrs. Earl D. Berry and the members of the Dramatic Association for a very charming and successful entertainment given at the Carnegie Lyceum.

We are also much indebted to friends of the Hospital for donations of various kinds, a list of which is to be found on pages 52-56.

GEORGE F. CLOVER,
Superintendent.

PASTOR'S REPORT.

TO THE HONORABLE THE BOARD OF MANAGERS:

Gentlemen:

The pastoral statistics for the year are as follows:

Baptized	18
Confirmed	26
Marriages	5
Funerals	107
Holy Communion:	
In Chapel	35 times
In Wards	53 "
<i>In extremis</i>	50 "

The religious services of the house have been conducted as heretofore. Every week-day a brief service has been held in each ward, and at 6 P.M. Evening Prayer has been said in the Chapel.

On Sunday the services have been at 10.30 A.M. and at 4 P.M. The Holy Communion has been celebrated on the first Sunday of each month at 10.30 A.M., on the third Sunday at 6 A.M., and on the major festivals of the Church year.

The Holy Communion has also been celebrated in some ward each Sunday. This service enables patients confined to their beds or unable to leave their wards to receive the Sacrament during a protracted stay in the Hospital.

The clergy of the house have been available to administer the offices of the Church when such ministrations were desired, and the assistant pastor has made regular rounds for Christian instruction and consolation of the patients.

The following is

The library, from which books are distributed about the wards, is a very great comfort and recreation to the patients. Many of the volumes have grown old and cannot longer be used. We would be grateful for new ones to take their place.

Too much cannot be said in favor of the Kindergarten work in the Children's Wards. The little patients, suffering with orthopedic and other diseases, remain sometimes for many months in the Hospital. The mental and manual training given in the Kindergarten not only takes the place, in some degree, of the school-days lost through illness, but the amusement afforded the children does much toward lessening their sense of pain and breaking the tediousness of their confinement. The salary of the teacher and cost of materials come from special gifts to the Charity Fund, and it is hoped that the contributions to the fund may be such as will permit of the continuance of the work for the coming year.

We gratefully acknowledge the valued services of the volunteer choir which has so kindly sung in the Chapel on Sunday afternoons.

GEORGE F. CLOVER,
Pastor.

for new growth	2
Nephrorrhaphy	8
Nephrotomy, double	1
Drainage for tubercular kidney	1
Renal calculi	1
	<hr/> 16

OPERATIONS ON ŒSOPHAGUS, RECTUM, AND ANUS.

Whitehead's, for hemorrhoids	5
Allingham's, for hemorrhoids	25
Fistula in ano	21
Ischio-rectal abscess	8
Linear cauterization for prolapse rectum	1
proctotomy	1
Dilatation for stricture rectum	1
for fissure in ano	3
Kraske's, for cancer rectum	4
Maunsell modified for cancer rectum	3
Excision of papilloma rectum	1
	<hr/> 73

ABDOMINAL OPERATIONS.

Abdominal operations for persistent sinus	8
for exploratory cœliotomy	20
Cœliotomy for acute appendicitis, with abscess.....	28
for acute appendicitis, catarrhal	21
for acute appendicitis, suppurative	12
for acute appendicitis, perforative	8
for chronic appendicitis	86
for gangrenous appendicitis	5
for recurrent appendicitis	15
Cholecystotomy	3
Cholecystectomy	4
Cholecystostomy for empyema gall bladder	2
for gall-stones	6
Cholecyst-enterostomy	3
Choledochotomy	5
Hepatomy	1
Drainage of hepatic abscess	2

Excluding phthisis cases, the death rate would be 8.8.

PATHOLOGIST'S REPORT.

During the year ending September 30, 1901, there have been performed one hundred and ten autopsies. These may be classified as follows:

NERVOUS SYSTEM.

Cerebral hemorrhage	2
Fracture of the base	1
Cyst of cerebellum	1
Tumor of ventricles	1
Meningitis	3
Cerebro-spinal meningitis (tuberculous)	1

VASCULAR SYSTEM.

Pericardium.	
Acute pericarditis	1
Heart.	
Acute mitral endocarditis	1
Chronic aortic endocarditis	3
Chronic mitral endocarditis	5
Fatty heart (marked lesion)	6

RESPIRATORY SYSTEM.

Larynx.	
Tuberculous laryngitis	2
Lungs.	
Acute lobar pneumonia	5
lobular pneumonia	2
broncho-pneumonia	2
Chronic pulmonary tuberculosis	32
Pleura.	
Empyema	2

GASTRO-INTESTINAL TRACT.

Æsophagus.	
Peach stone in æsophagus	1
Carcinoma of æsophagus	1
Stomach.	
Carcinoma of	2
Ulcer of	1
Duodenum.	
Carcinoma of duodenal papilla	1
Intestine.	
Typhoid fever	2
Tuberculous enteritis	7
Carcinoma of colon	1
Perforative appendicitis	1
Colitis.

EXAMINATIONS MADE IN THE DEPARTMENT OF CLINICAL PATHOLOGY.

Only a partial report of the work in this department can be made, but as an indication of the amount of work done the following records are submitted:

BLOOD EXAMINATIONS.

Leucocyte counts	285
Red cell counts	57
Hæmoglobin determinations	107
Differential counts of leucocytes	169
Absolute iron determinations	56

URINALYSIS.

Diazo reactions (phthisis patients)	3,354
reactions (typhoid cases, etc.)	1,722
Indican tests	554
Chloride determinations	197
Albumose tests	40
Pentose tests	28
Acetone, diacetic acid, etc.	27

BACTERIOLOGICAL EXAMINATIONS.

Specimens examined bacteriologically	280
Cultures were made in diphtheria cases	60
were made in surgical and autopsy cases.....	210
Widal test	249

X-RAY EXAMINATIONS.

Fluoroscopic examination, only	926
Radiographs were made in	371

Very respectfully,

FRANCIS CARTER WOOD,
Pathologist.

PROSPECTUS OF ST. LUKE'S HOSPITAL TRAINING SCHOOL FOR NURSES, NEW YORK.

St. Luke's Hospital of New York is prepared to give a three years' course of training to women desirous of becoming professional nurses. Application must be made either in person, or through the printed "form of application," to the Directress of Nurses.

The following information is furnished to candidates for admission to the Training School:

Candidates must be from twenty-three to thirty-three years of age. They must be in sound physical condition, and must send, with their application, a certificate from a physician testifying to this fact. They must also give the names and addresses of two persons, not relatives, to whom the Hospital may refer.

A limited number only can be received. The rejection, therefore, of a candidate is no reflection on the individual's character, neither does it prove her to be disqualified for admission to other Training Schools. The reasons for rejection are not given either to applicants for admission or probationers on duty, neither are letters addressed, personally, to the authorities of the Hospital returned.

Candidates for admission are not received in classes, but individually as the work of the Hospital requires. Classes are formed at the convenience of the school.

Accepted candidates are nominated in order on a "waiting list," and will be called for duty as the needs of the Hospital require. When called they are expected to report promptly, and to bring with them the means of returning to their homes, should they not successfully pass their probationary term.

Accepted candidates, while awaiting a call, should prepare themselves for their class work by studying Anatomy and Physiology. The class book used in St. Luke's Training School is "Kimber's Anatomy and Physiology for Nurses."

Any change of plan, or of address, on the part of a candidate, whose name is on the waiting list, should be immediately reported to the Directress of Nurses.

Probationers are boarded, lodged, and have their laundry work done at the Hospital. Twenty-four pieces are allowed for the laundry each week.

Each probationer, who passes through two months of trial, will be admitted to the school and will then be required to sign a written agreement to remain in the school for three years, and to conform to its rules and the rules of the Hospital.

The qualifications of nurses for the work, and the propriety of retaining or dismissing them at the end of their probationary term, are determined by the Directress of Nurses. She can also, with the approval of the Training School Committee, dismiss any nurse at any time for misconduct or inefficiency. The nurses reside in the Hospital and serve as assistants in its wards.

Nurses after they are admitted to the school are required to wear the Training School uniform while on duty. In addition to board, lodging, and laundry each nurse receives ten dollars (\$10) per month during her whole course, for dress, text-books, and other expenses in connection with her work. It is considered that the education given during the course is a full equivalent for services rendered.

The uniforms belong to the school, and must be returned in case a pupil leaves or is dismissed during her course of instruction.

Hours of duty are from 7 A.M. to 7:30 P.M., for day staff; 7:30 P.M. to 7 A.M. for night staff. Leisure hours: Two hours daily, one afternoon each week from 2 to 7:30 P.M. Sunday, half the day. These hours are subject, however, to the requirements of the work. Nurses may be called upon for day or night duty, or for care of private patients in the Hospital, as may be necessary.

Three weeks' vacation is allowed each year. Pupils will not be allowed during their course of instruction to nurse sick relatives at home, or to absent themselves for other personal reasons. Absences are not allowed except for extreme cause. If for any reason any nurse is called away for any period exceeding four weeks, she loses her class position in the School, but may enter the following class, unless such absence exceeds four months, when she will, *ipso facto*, cease to be a member of the school. If readmitted, she must begin her course anew; provided, how-

ever, that this rule may be modified by the Training School Committee at its discretion. If pupils are sick they are cared for in the wards of the Hospital.

Instruction is given mainly by the Directress of Nurses and by the head nurses of the wards. Lectures by physicians and surgeons, and recitations, take place at stated periods. Examinations by a Committee of the Medical Board, chiefly upon practical points, are held at stated intervals.

Opportunity is given for training in obstetrical nursing.

When the full term of three years is completed, and the pupils are regarded as thoroughly qualified, they receive, if their conduct and examinations have been satisfactory, diplomas certifying to that fact, after which they are at liberty to choose their own field of labor. The religious services of the Hospital are those of the Protestant Episcopal Church, and the pupils of the school are expected to attend these services regularly.

The right is reserved by the Hospital to terminate the connection of any pupil with the school for reasons which to the Hospital may seem sufficient.

ADMISSION OF PATIENTS.

DISEASES TREATED.

All kinds of *acute, curable and non-contagious* diseases treated in the wards. Sufferers with chronic and incurable complaints received and retained at discretion, but (with the exception of the "House of Rest for Consumptives" patients) not permanently provided for. None are received as patients who, from the nature of their ailment, would occasion discomfort to their neighbors. The following are inadmissible: Sufferers from contagious disease, cancers of an incurable and offensive nature, epilepsy, opium habit, delirium-tremens, insanity, and venereal disease.

MODE OF APPLYING.

Applicants received in person daily (except Sunday) from 10 A.M. to 5 P.M. Cases of sudden injury, requiring immediate care, received at any hour, and, if need be, without charge.

Applicants *from the city*, too sick to apply in person, will be examined by a physician at their residences.

Applications from *out of the city* should be made in writing to the Superintendent. Such communication should enclose a written certificate from a regular physician as to applicant's disease, present condition, and symptoms. It should state whether bed in general ward or private room is desired. If latter, at what price, and on which of hereinafter named conditions.

Applicants from out of the city requiring *medical* treatment not ordinarily received.

Applicants requiring *surgical operations* not obtainable at home admitted from any part of the country.

RATES OF BOARD.

GENERAL WARDS.

Board of patients in general wards per week is \$10.50 for adults and \$6 for children (under twelve years of age), payable each four weeks in advance. Unexpended portion of above refunded at same rate on patient's discharge.

Applicants applying for FREE treatment, in whole or in part, must be suitably certified as unable to pay Hospital rates, and as worthy objects of charity.

PRIVATE ROOMS.

The charitable work of the Hospital is done in the general wards. The income from board and nursing of private patients is applied toward making up deficiency of revenue of the institution, to support increasing charity work of general wards.

PRICES OF PRIVATE ROOMS.

Single rooms from \$3 to \$6 per day, which does not include Attending Physicians' or Surgeons' fees.

Hospital charges in private rooms invariably must be paid each two weeks in advance, and unexpended balance will be refunded at same rate on patient's discharge.

The Superintendent is authorized to make special terms for patients in private rooms requiring extra nursing, and requiring expensive medical and surgical supplies for their treatment.

House Physicians and Surgeons at all times within call, at discretion of nurse.

Diet regulated by physicians' orders, and meals served at regular hours.

AS TO FEES.

No Officer, Nurse, or Servant is allowed to receive any fee or gift from a patient.

PROFESSIONAL SERVICES OF PHYSICIANS AND SURGEONS.

The Physicians and Surgeons give their professional services without salary to the Hospital, under the following terms and conditions:

1. They will not receive professional fees under any circumstances from any patient occupying a bed in the wards of the Hospital; neither will they expect or receive such fee from any patient occupying a private room, provided that, in the opinion of the Hospital authorities, ability does not exist on the part of such patient to pay for the services of the Attending Physician or Surgeon, besides paying first the Hospital charges for board and nursing.

2. The Attending and Consulting Physicians and Surgeons are expected to make definite private arrangements as to their professional fees with those patients whom they recommend to the Hospital authorities for their private treatment, *before* such patients are sent to the Hospital.

3. The Hospital authorities protect their own Staff from a misuse of their charitable services, by recommending any applicant who applies directly to the Hospital for the use of a private room to any member of the Attending or Consulting Staff, whom they may select, that the above arrangements may be made.

4. The Physicians and Surgeons treat patients in endowed private rooms under the same rules as apply to patients in other private rooms, giving their services without fee, only to those who are unable to pay it, besides paying the Hospital rate for board and nursing.

5. Copies of these rules may be shown at discretion to applicants for private rooms, that they, before admission, may designate in which of these ways their means allow them to avail themselves of the privileges of the Hospital.

RULES FOR PATIENTS.

All patients admitted to the Hospital will be required to conform to the rules of the house. Patients receiving charity are expected to show a readiness to oblige one another and to assist in such becoming services in the wards as their health enables them to perform, remembering that they have voluntarily come into a household of which the great law is that of mutual kindness and brotherly love.

1. Profane or indecent language, irreverent behavior at the services of religion, the expression of immoral or infidel sentiments, and the like, are offences for which a patient will forfeit his place in the Hospital. There must be perfect silence in the wards during the religious services, and during the doctors' regular professional rounds. Loud talking, reading, or calling across the ward are not allowed at any time.

2. Patients are not allowed to leave the wards to which they respectively belong, except for the corridors attached to their wards, and the Chapel, without permission. When desiring to go beyond the bounds of the Hospital, patients must obtain a pass and leave it at the Office. Monday is the regular "pass day." Passes are not granted on other days except for special causes, when they must be indorsed "approved" by the Superintendent.

3. All wines, spirituous liquors, medicines, fruits, food, or delicacies of any kind, except those prescribed and furnished by the Hospital, or furnished by express permission of the Hospital authorities, are strictly prohibited. Any patient receiving such articles irregularly through his friends will make himself liable to discharge. Only such books, pamphlets, newspapers, and packages are allowed in the wards as are approved by the Superintendent. Orders for daily papers are received and executed through the Office. Newsboys or other venders not allowed in the buildings.

4. No patient may purchase, or procure any members of the household to purchase for him, any articles whatsoever without leave to that effect.

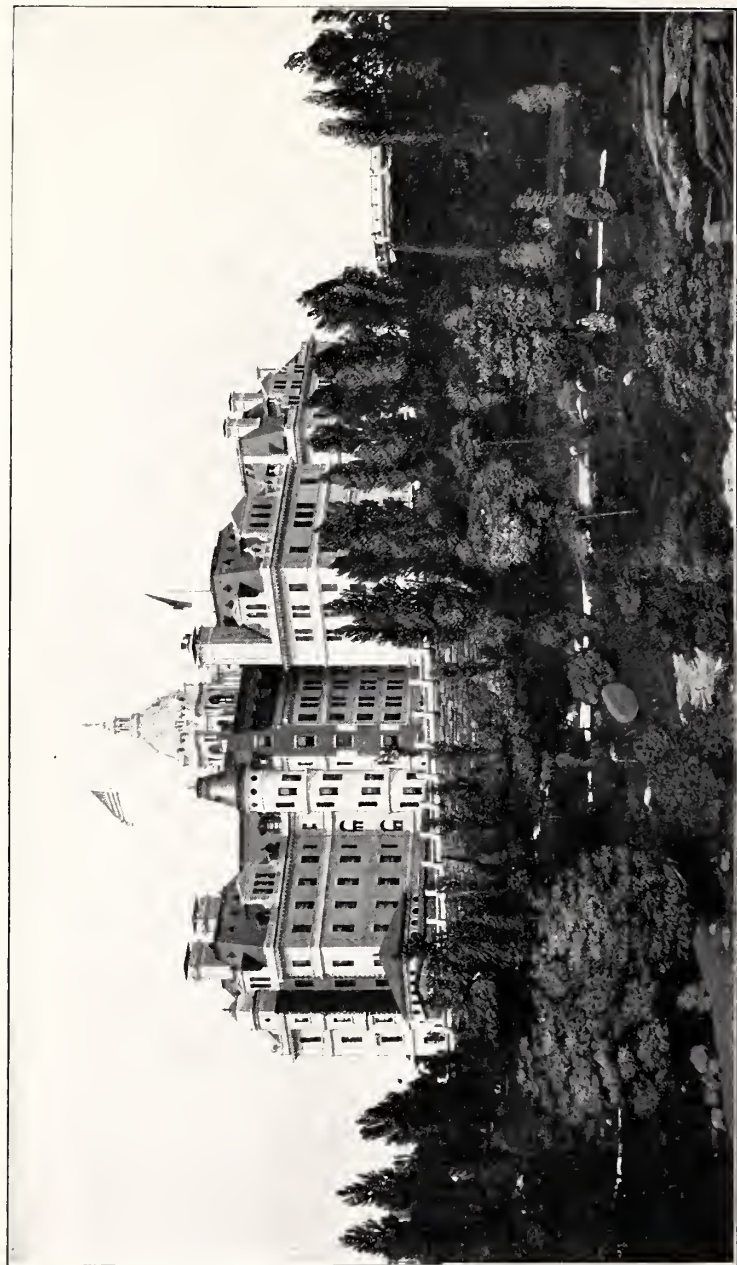

5. Patients are expressly forbidden to spit anywhere except in their spittoons, nor shall they use chewing tobacco without the permission of the House Physician or Surgeon.

6. Patients must not open or shut any window or register of a ward at their own option.

7. The hour for patients in the wards to retire to their beds is 9 P.M.

8. The Hospital will not be responsible for any property belonging to patients; but there is a safe in the Office where money and valuables may be deposited, for which articles, when so deposited, a receipt will be given.

9. When a patient desires the visit of a clergyman, not in the house, he must signify the same to the Pastor or Superintendent, who may, at his discretion, invite the clergyman, with the understanding that he will confine his visit to the person desiring to see him.

ST. LUKE'S HOSPITAL, NEW YORK. (REAR VIEW.)

REGULATIONS FOR VISITORS.

1. Visitors desirous of seeing the institution will be admitted daily (Sunday excepted), between 9 A.M. and 12 M. and between 1 and 5 P.M. Ushers will be in attendance to show visitors over the buildings.

2. The friends of patients are admitted to the general wards from 2 to 3:30 P.M. on Tuesdays and Fridays, and on Sundays from 4:45 to 5:30 P.M.

3. Women visitors, unless near relatives, are not admitted into the Men's Wards, nor men visitors into the Women's Wards.

4. All visitors are respectfully requested to leave when the chimes are rung at the expiration of the visiting hour.

5. The cards of visitors to the private patients will be taken to their rooms, under restrictions imposed by the Attending Doctor, daily, from 10 A.M. to 1 P.M.; from 3 to 5 and from 7 to 8 P.M. Such visitors will be expected to leave the rooms of their sick friends during the doctor's visit. They are to leave before the doors of the Hospital are closed at 10 P.M.

6. The friends of patients are cordially invited to the Chapel Services on Sundays at 4 P.M.

7. In cases of extreme sickness special passes will be granted to the immediate relatives of the sick patient.

8. No fruit, liquors, or delicacies of any kind whatsoever may be taken by the friends of patients into the wards or private rooms. All such articles must be left at the Office, and, if approved by the doctors in charge of the patients for whom the articles are intended, will be delivered.
